

# 10 Features & Benefits of Alta Enterprises Automatic Pool Cover System

- 1. Impressive ROI** - On average the system pays for itself in the first 5-8 years.
- 2. Energy Efficient** - Preventing water, heat, and chemical loss, covering a pool is the single most effective means of reducing energy costs. "Covering a pool = energy cost savings of 50% - 70%" – US Department of Energy.
- 3. Ease of Use** - One person can cover or uncover a 6-lane 25-yard pool in 90 seconds.
- 4. No Lost Deck Space** - The system is mounted high on the wall and off the pool deck.
- 5. Over 30 Years In The Industry** - Alta Enterprises has over 30 years of experience manufacturing automatic pool cover systems.
- 6. Highest Quality Materials** - Our robust, fully welded cover is made of the highest quality materials on the market. The stainless steel construction is expertly powder coated to provide unparalleled corrosion resistance, with all electronics securely housed in waterproof enclosures.
- 7. Best Warranty On The Market** - Full 5-year warranty on covers and reels with extended warranties available, and a lifetime structural warranty on reels and brackets.
- 8. Longevity** - Covers last on average 13 years and electronics over 25 years.
- 9. Environmentally Responsible** - Reduce the carbon footprint of your pool by regularly covering your pool when not in use.
- 10. Minimal Maintenance Needed** - On average 3-5 man hours per year.
